

Archinal Farms

Grass-fed Beef – Naturally tasty

Come and try our great tasting sausages at the MVDHC Christmas BBQ on 14th December and at the Australia Day Dressage Day at Taree Showground on the 25th January. We will be at both events and would be very happy to answer any questions you have about the meat, the farm and our farming practices

Savour the flavour and texture
of beef grown
the “old fashioned way”
in lush natural pastures
beside clear waters
with clean country air.

**Add delicious grassfed beef
-a source of omega-3's-
to your menu.**

*Over 160 years, six generations of the same family have raised **great tasting beef**
naturally in the beautiful Manning Valley
right beside the mighty Manning River.*

*We use **more than** an environmentally friendly approach to farming.
We use sustainable and regenerative farming methods
and continue to produce
high quality, naturally nutritious foods.*

Have a look at our website at www.archinalfarms.com.au for more information on the health, environmental, social and economic benefit of buying our meat.

**Contact Bill & Alison Archinal
On 6550 6565 or email us at archinalfarms@skymesh.com.au
for more information on how to order our great tasting beef.**
